Acknowledgement of Reply Brief

The reply brief filed 5/9/2005 has been entered and considered. The application has been forwarded to the Board of Patent Appeals and Interferences for decision on the appeal.

The Examiner does agree with the appellant that the final rejection dated 12/23/2004 was premature. It appears that although the Detailed Office Action did not conclude that the action was final, the examiner inadvertently and incorrectly indicated on the Office Action Summary PTOL-326 that the action was Final. The Examiner apologized for this error and concludes that the appellant is not requesting a reopening of the prosecution. The examiner also provides the appellant with the suggestion that if the appellant had filed an after final request for reconsideration or even telephoned the examiner, the finality would have been withdrawn. However, since the appellant did not opt for this remedy the examiner can only conclude that the appellant wished to proceed to appeal after the second rejection as is permissible by the MPEP.

In regards to appellant's other arguments presented in the reply brief, the examiner maintains the previous rejection and considers the Examiner Answer to be sufficient to address the issues presented by the appellant in the reply brief.
